## GOLF

PGA Head Professional: Eric Barnes

Arrival: Drop golf bags at bag drop. Check-in with caddy master and proceed to the locker room. Change shoes and clothes in the locker room if necessary.

### Dress Code—Golf Course

Only conventional and appropriate golf attire may be worn. Shorts and skirts must rise no more than 4" above the knee. Mock turtlenecks are acceptable. If you have questions as types of appropriate sports attire or need to purchase any for a guest, please look at the type of clothing available in our golf pro shop. Golf shirts are required to be tucked in at all times for men, and for women when appropriate. Hats must be worn with bills squarely to the front. **Not acceptable:** Denim of any kind, short shorts, very short mini-skirts, tennis shorts, cargo pants/shorts, athletic/jogging shorts/pants, cutoff slacks, swimming attire, halter tops, fishnet tops and t-shirts are not allowed on the golf course, practice range or practice putting green.

### Dress Code—Clubhouse Locker Rooms

Members and guests are allowed to wear "dressy jeans" as acceptable attire. Hats are not allowed to be worn in the clubhouse. **Not acceptable:** Examples of non-appropriate jeans are those that are ripped, faded, tattered, cut off, frayed or have holes.

**Pace of Play Please play without delay.** It is the duty of every golfer to keep up with the game in front and not just ahead of the game behind. All 18-hole rounds should be played in four hours or less and all 9-hole rounds should be played in two hours or less. Golfers who play slowly should stand aside and signal faster players to play through. Golfers riding in carts should pace themselves so as not to place unreasonable pressure on walking players ahead.

### Care of the course

- Repair ball marks in the greens
- Replace divots
- Rake bunkers
- Comply with any special rules concerning the use of carts that day
- Carts must use the rough for travel when indicated.
- Carts are never permitted within 25 feet of any green or within a restricted designated area around any green or tee.

### Lightning detection

For your safety, the club installed an automatic lightning detection system. When you hear one long blast of the horn, there is lightning in the area and all golfers must clear the course. Once the course is available for play, three short blasts of the horn will occur. Three tones indicate that lightning is no longer in the vicinity and players may resume play on the golf course and practice tee/range.
